

As an AmeriHealth New Jersey member, you have access to one of the broadest physician networks in New Jersey. We want to provide you with tools to quickly and easily find in-network providers.

Features

Easy-to-use search

Simple navigation helps you get faster, more accurate results when looking for doctors, hospitals, or other facilities.

Doctor and hospital profiles

Informative doctor and hospital profiles and nationally recognized quality measurements help you find the doctor that is right for you. The profiles offer more than just location and phone number. They also show credentials, network and hospital affiliations, office hours, gender, specialty, language spoken and those who are accepting new patients.

Rate and review your experience

See what other members thought about a doctor or hospital, and share your own experiences. Anyone can read ratings and reviews, but you must log in at amerihealthnj.com to submit a review.

Compare doctors and facilities

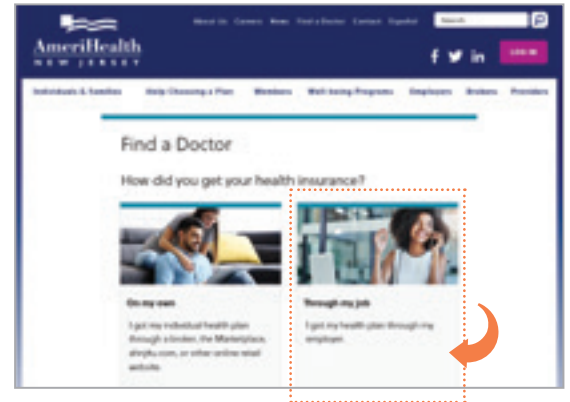

Easily compare up to five doctors and hospitals at once. You can compare specialties, education, board certifications, quality reviews, and more.
